Table of Contents

1. Executive Summary
2. Competitor Overview
3. International Competitor Deep Dive
4. Iranian Competitor Deep Dive
5. Feature Matrix (All Sites)
6. Must-Have Pages for CaCO3 B2B Website
7. Recommended Sitemap - Option A: Minimum Viable
8. Recommended Sitemap - Option B: Standard B2B
9. Recommended Sitemap - Option C: Premium / SEO-Optimized
10. Page-by-Page Content Guide
11. SEO Strategy & Technical Recommendations
12. Implementation Phases

1. Executive Summary

This report analyzes 15 competitor websites in the calcium carbonate (CaCO3) and mineral powder industry - 8 international sites (Omya, Imerys, Sibelco, Nordkalk, ECCF, Huber, BHP, MTI) and 7 Iranian sites (Alvan Powder, Laleh Group, Cacaspian, Tanin Arad, Farayand Powder, Narm Powder, Farapowder). The goal is to identify the optimal sitemap structure for Sababehpar's new B2B corporate website.

Key findings: (1) All competitors maintain a blog/knowledge section for SEO, (2) Industry/application-based navigation (not just product-based) is the gold standard for B2B mining companies, (3) Multilingual capability (especially English + Arabic) is critical for export-oriented Iranian companies, (4) Technical datasheets and quality certifications are essential for B2B customer trust-building, (5) Sustainability section has become a requirement for international credibility.

Three sitemap options are presented: Minimum Viable (8 pages), Standard B2B (18 pages), and Premium SEO-Optimized (30+ pages). Each option includes page-level content guidance and SEO recommendations.

2. Competitor Overview

International Competitors

Global leaders in calcium carbonate and industrial minerals - studied for advanced UX, content depth, and SEO patterns.

Iranian Competitors

Direct regional competitors - studied for local market relevance, bilingual capability, and industry-specific features.

International Sites Summary

Company	Country	Main Products	Site Strengths
Omya	Switzerland	GCC, PCC	Gold standard UX, excellent navigation
Imerys	France	Specialty minerals	Best industry overview, massive content
Sibelco	Belgium	Industrial minerals	Excellent application-based navigation
Nordkalk	Finland	Limestone, PCC	Strong sustainability section
ECCF	UAE	GCC, coated	Best mid-size CaCO3 site, clean
Huber	USA	Specialty minerals	Strong business unit structure
BHP	Australia	Multi-commodity	Investor-grade structure
MTI	USA	PCC, bentonite, specialty	Global leader in PCC, R&D, investor hub

Iranian Sites Summary

Company	Location	Products	Languages	Key Features
Farapowder	Aligoodarz	CaCO3 coated/regular	FA/EN	Best bilingual site, blog
Farayand	Tehran/Delijan	GCC, coated, talc	FA/EN/AR/RU	4 languages, stats, certs
Tanin Arad	Tehran	CaCO3, talc, barite	FA/EN	Modern UI, clear categories
Narm Powder	Isfahan	Talc, CaCO3, barite	FA/EN	Industry network
Alvan Powder	Hamedan	CaCO3, talc, mica	FA/EN	Blog, gallery, statistics
Cacaspian	Qazvin	CaCO3 mesh grades	FA	FAQ, pricing, blog
Laleh Group	Markazi	Animal feed supplement	FA	Blog, licenses, gallery, standards

3. International Competitor Deep Dive

Omya (omya.com) - Switzerland

Gold standard. Omya organizes by: Products, Industries, Sustainability, About, Careers, News, Contact. Industry-first navigation (Paints & Coatings, Plastics, Paper, etc.) allows buyers to self-identify. Deep technical content per industry.

- Sitemap strengths: Industry-first navigation, technical datasheets, global/local structure
- SEO lesson: Industry pages rank for "[industry] calcium carbonate"

Imerys (imerys.com) - France

Massive site organized by Markets (industries) and Product ranges. 15+ industry pages. Dedicated R&D, Sustainability, Investors sections. Strong brand storytelling.

- Sitemap strengths: Markets > Products structure, dedicated R&D section
- SEO lesson: Comprehensive industry pages, FAQ section

ECCF (eccf.ae) - UAE

Best mid-size CaCO3 manufacturer site. Clean design with clear CTA paths. Products: natural, coated, aggregates, minerals. Downloadable technical data sheets per product.

- Sitemap strengths: Simple but deep. Login/Register for customers, Careers, FAQ
- SEO lesson: PDF datasheets with SEO titles, clean URL structure

Nordkalk (nordkalk.com) - Finland

Strong sustainability section. Products organized by type (limestone, quicklime, PCC) AND solutions (agriculture, water treatment, etc.). Sustainability program with 9 focus areas.

- Sitemap strengths: Dual product/solution navigation, sustainability depth
- SEO lesson: Solution-based landing pages, location-specific content

MTI (mineralstech.com) - USA

Global leader in PCC and bentonite-based products. NYSE-listed with $2.1B revenue. Strong investor hub, dedicated R&D section, and comprehensive sustainability reporting.

- Sitemap strengths: Comprehensive investor hub, strong R&D content
- SEO lesson: Investor-grade content structure, business unit organization

4. Iranian Competitor Deep Dive

Farapowder (farapowder.com) - Aligoodarz

Best Iranian site for benchmarking. Bilingual (FA/EN), clean design, blog with 6+ articles, online ordering. Products: granules, powder, coated, lump. Advantages: proximity to mine, transport network, quality control.

Farayand Powder (farayandpowder.com) - Tehran/Delijan

Most depth. 4 languages (FA/EN/AR/RU), 30+ years, 20+ lines, 900+ customers. Products: GCC, coated, talc, barite, iron oxide, carbon black. Subsidiary: Arad Sanat.

Tanin Arad Yekta (taninarad.com) - Tehran

Best modern UI in Persian. Clean and professional design. Products split: manufacturing and trading. Exclusive representation of SEM KIMIYA Turkey. Stats: 2000+ successful sales.

Alvan Powder (alvanpowder.com) - Hamedan

Strong blog with 10+ educational articles covering CaCO3 applications (aquarium, medicine, glass, PVC, poultry, oil & gas). Statistics section, gallery, catalog. Products: 8 mineral powders.

5. Feature Matrix

X = present. - = absent. Adoption percentage across all 15 sites.

6. Must-Have Pages for CaCO3 B2B Website

Based on adoption rates across 15 competitor sites, the following pages are essential:

Page	Adoption	Key Content
Home	100%	Hero, company intro, featured products, stats, blog
About Us	100%	History, mission/vision, mines, management, certifications
Products	93%	Categories, technical specs, mesh grades, packaging, applications
Contact Us	100%	Form, address, phone, email, map, social media
Blog/Knowledge	80%	Educational articles on CaCO3 applications, industry trends, news
Industries/Apps	53%	Industry landing pages linked to relevant products
Quality/Certs	53%	Lab, standards, ISO, veterinary license, COA
Gallery	40%	Factory, mine, production line, products
Datasheets	47%	Technical specification PDFs for each product
Careers	60%	Job openings, company culture
Multilingual	60%	At minimum English + Persian, preferably Arabic

7. Option A: Minimum Viable Sitemap (8 pages)

Best for: Quick launch, limited budget, initial presence. Estimated: 8-10 pages.

Sitemap Tree

```
HOME (/)
  |-- Hero, about summary, featured products, stats, blog feed

ABOUT US (/about)
  |-- History, mission, competitive advantages

PRODUCTS (/products)
  |-- Product categories, basic descriptions, applications

INDUSTRIES (/industries)
  |-- 6-8 industry cards linked to relevant products

BLOG (/blog)
  |-- Educational articles on CaCO3 applications

GALLERY (/gallery)
  |-- Mine, factory, products, team

CONTACT US (/contact)
  |-- Form, map, phone, email, social media

FOOTER (all pages)
  +-- Quick links, social media, contact info
```

SEO Assessment

- Limited pages = limited keywords. Only suitable for brand search.
- Missing: technical datasheets, careers, quality, multilingual
- Blog helps but needs consistent publishing (at least 2-3 per month)

8. Option B: Standard B2B Sitemap (18 pages)

Best for: Professional B2B presence, organic growth, international customers. Estimated: 18-22 pages.

Sitemap Tree

```
HOME (/)
  |-- Hero, company summary, 3 key stats, featured product cards,
  |   blog feed (latest 3), industry icons, CTA, footer

ABOUT US (/about)
  |-- Company History (/about/history)
  |-- Mission & Vision (/about/mission-vision)
  |-- Mines & Resources (/about/mines)
  +-- Certifications & Standards (/about/certificates)

PRODUCTS (/products)
  |-- GCC Calcium Carbonate (/products/gcc)
  |   |-- Regular & coated, mesh grades, spec table, datasheet
  |-- Micronized Calcium Carbonate (/products/micronized)
  |-- Calcium Carbonate Granules (/products/granules)
  |-- Limestone & Lumps (/products/limestone)
  |-- Hydrated Lime (/products/hydrated-lime)
  |-- Talc Powder (/products/talc)
  +-- Barite (/products/barite)

INDUSTRIES SERVED (/industries)
  |-- Paint & Coatings (/industries/paint)
  |-- Plastics & Polymers (/industries/plastics)
  |-- Construction & Building (/industries/construction)
  |-- Adhesives & Sealants (/industries/adhesives)
  |-- Glass (/industries/glass)
  |-- Detergent & Cleaning (/industries/detergent)
  +-- Agriculture (/industries/agriculture)

QUALITY & LABORATORY (/quality)
  |-- Lab equipment, analysis process, sample COA

BLOG / KNOWLEDGE CENTER (/blog)
  |-- Educational articles, industry news, technical guides

GALLERY (/gallery)
  |-- Mine, factory, production line, products

EXPORT & LOGISTICS (/export)
  |-- Export capability, packaging, shipping partners

CONTACT US (/contact)
  |-- Form, address (Tehran + Aligoodarz), phone, email, map

CAREERS (/careers)
  |-- Open positions, culture, application form

FOOTER (all pages)
  +-- Quick links, social media, newsletter signup
```

SEO Assessment

- Strong keyword coverage: product names, industry terms
- Industry pages target: "CaCO3 for paint" and "calcium carbonate in plastics"
- Blog drives long-tail traffic. Quality page builds EEAT credibility.
- Missing: multilingual, sustainability, R&D, case studies

9. Option C: Premium SEO-Optimized Sitemap (30+ pages)

Best for: Maximum organic growth, global reach, authority building. Estimated: 30-40 pages.

Sitemap Tree

```
HOME (/)
  |-- Hero (video/image), 4-5 stat counters, product slider,
  |   about summary, industry icons, blog feed, KPIs,
  |   client logos, CTA to contact, newsletter, footer

ABOUT US (/about)
  |-- Company History (/about/history)
  |-- Mission, Vision & Values (/about/mission-vision)
  |-- Leadership Team (/about/leadership)
  |-- Mines & Geological Reserves (/about/mines)
  |-- Certifications & Awards (/about/certificates)
  |-- Sustainability & CSR (/sustainability)
  +-- R&D and Innovation (/about/rd)

PRODUCTS (/products)
  |-- Ground Calcium Carbonate GCC (/products/gcc)
  |   |-- Regular: grades, specs, applications, datasheet
  |   +-- Coated: coating type, benefits, applications, datasheet
  |-- Precipitated Calcium Carbonate PCC (/products/pcc)
  |-- Micronized Calcium Carbonate (/products/micronized)
  |   |-- Mesh 200, 400, 800, 1500, 2500, 3500
  |-- Calcium Carbonate Granules (/products/granules)
  |-- Limestone Lumps (/products/limestone)
  |-- Hydrated Lime (/products/hydrated-lime)
  |-- Quicklime (/products/quicklime)
  |-- Talc Powder (/products/talc)
  |-- Barite / Barium Sulfate (/products/barite)
  |-- Ochre / Iron Oxide (/products/ochre)
  +-- Other Minerals (/products/other-minerals)

INDUSTRIES & SOLUTIONS (/industries)
  |-- Paint & Coatings (/industries/paint)
  |-- Plastics & Polymers (/industries/plastics)
  |-- Construction & Building (/industries/construction)
  |-- Adhesives & Sealants (/industries/adhesives)
  |-- Glass & Ceramics (/industries/glass)
  |-- Detergent & Cleaning (/industries/detergent)
  |-- Paper & Packaging (/industries/paper)
  |-- Rubber & Tires (/industries/rubber)
  |-- Agriculture & Livestock (/industries/agriculture)
  |-- Water Treatment (/industries/water-treatment)
  |-- Oil & Gas Drilling (/industries/oil-gas)
  +-- Food & Pharma (/industries/food-pharma)

QUALITY CONTROL (/quality)
  |-- Lab Equipment & Analysis (/quality/lab)
  |-- Certificate of Analysis (COA) (/quality/coa)
  +-- Quality Standards & Certifications (/quality/standards)

10. Page-by-Page Content Guide

Sections and target keywords for each key page.

Home

Content sections:

- Hero: company name, tagline, key competitive advantage
- Stats: years of activity, production capacity, mines count, export destinations
- Featured products (slider or cards) with CTA
- About Us summary (2-3 lines) with link to /about
- Industry icons (paint, plastics, construction, etc.)
- Latest blog posts (3)
- Trust badges: certifications, standards, client logos
- CTA: "Contact us for price inquiry"
- Newsletter signup

Target keywords:

micronized calcium carbonate Iran | CaCO3 producer | calcium carbonate factory

About Us

Content sections:

- Company history and founding story
- Mission, vision, values
- Mine locations and geological advantages
- Production capacity and technology
- Why Aligoodarz? (high purity, strategic location)
- Management team / CEO message
- Timeline infographic
- Certifications and awards gallery

Target keywords:

calcium carbonate mining Iran | Aligoodarz mine | mineral processing company

Products - GCC Calcium Carbonate

Content sections:

- Product name and grade
- Mesh range (200-3500)
- Brightness (%)
- Purity (CaCO3 %)
- Moisture content
- Particle size distribution chart
- Coating type (if coated): stearic acid %
- Applications by industry
- Download technical datasheet (PDF)
- Packaging options: 25kg bag, 1-ton jumbo, bulk
- Request price button

Target keywords:

GCC calcium carbonate | ground calcium carbonate | coated calcium carbonate

Industries - Paint & Coatings

Content sections:

- Industry overview (paint industry need for filler)
- Why CaCO3 for paint: whiteness, particle size, oil absorption
- Recommended products: GCC mesh 800-2500, coated
- Technical benefits: opacity, viscosity control, cost reduction
- Case studies / sample formulations
- Related blog articles
- CTA: Request sample or price

Target keywords:

CaCO3 for paint industry | calcium carbonate in paint | paint filler calcium carbonate

Quality Control

Content sections:

- Lab equipment list (XRF, XRD, particle size analyzer)
- Test parameters: purity, whiteness, moisture, mesh
- Quality standards: ISO, national standard, veterinary
- Sample Certificate of Analysis (COA)
- Quality assurance process chart
- Download sample COA (PDF)

Target keywords:

CaCO3 quality control | calcium carbonate analysis | COA calcium carbonate

Blog / Knowledge Center

Content sections:

- Educational articles (not promotional)
- Topics: "What is CaCO3?", "CaCO3 in paint", "How to choose calcium carbonate"
- Industry trends, company news
- Author bio for EEAT
- Categories: products, industries, technical, news
- Related posts at end of each article
- Social sharing buttons

Target keywords:

what is calcium carbonate | CaCO3 uses in industry | micronized powder benefits

Export & Logistics

Content sections:

- Export destinations (countries/regions covered)
- Packaging types: bag, jumbo, bulk
- Shipping: FOB, CIF, Incoterms
- Transport fleet and partners
- Export documents: COA, packing list, bill of lading
- Trade exhibitions attended
- Languages: English, Arabic, Turkish

Target keywords:

calcium carbonate export Iran | CaCO3 supplier Middle East | Iranian mineral exporter

Contact Us

Content sections:

- Contact form: name, company, email, phone, message, product interest
- Head office address (Tehran)
- Factory address (Aligoodarz)
- Phone: Iran + International
- Email: info@sababehpariranian.com
- WhatsApp / Telegram Business
- Company LinkedIn
- Google Map
- Business hours

Target keywords:

contact calcium carbonate supplier | CaCO3 price Iran | buy CaCO3 Iran

11. SEO Strategy & Technical Recommendations

Technical SEO

- SSL/HTTPS: mandatory for all pages
- Mobile-first responsive design
- Page speed: target under 3s load time
- Clean URL structure: /products/gcc not /product.php?id=5
- XML sitemap generation with weekly updates
- robots.txt with proper directives
- Schema markup: Organization, Product, FAQ, Article, BreadcrumbList
- Canonical URLs to prevent duplicate content
- Open Graph tags for social sharing
- Hreflang tags for multilingual
- Google Search Console + Google Analytics 4
- Core Web Vitals: LCP <2.5s, FID <100ms, CLS <0.1
- Image optimization: WebP, alt text, descriptive file names
- CDN for global audiences

Content SEO Strategy

- Blog: at least 2-3 articles per month, 800-1500 words
- Keyword clusters: grouped by product type, industry, and buyer intent
- Internal linking: connect products, industries, and articles
- External linking: to authoritative industry sources
- Evergreen content: "Complete Guide to Calcium Carbonate"
- Long-tail keywords: "best coated CaCO3 for PVC pipe"
- Local SEO: Google Business Profile for Tehran and Aligoodarz
- Backlink strategy: industry directories, exhibition websites
- Infographics and visual content for sharing
- Case studies with real customer results
- FAQ structured data for voice search

Multilingual SEO Strategy

- Phase 1: Persian + English (immediate, covers 90% of audience)
- Phase 2: Arabic (important for Middle Eastern buyers)
- Phase 3: Turkish (for Turkey market)
- Separate URL per language: /en/, /ar/, /tr/
- Hreflang tag on every page
- Professional translation (not machine) for credibility
- Separate keyword research per language

Recommended Keyword Clusters (Initial)

- Brand: sababehpar, saba behpar
- Product: calcium carbonate Iran, micronized CaCO3, coated CC, GCC, PCC, talc, barite
- Industry: CaCO3 for paint, CaCO3 in plastics, CaCO3 for PVC
- Buyer intent: calcium carbonate price, CaCO3 supplier Iran, buy calcium carbonate
- Export: calcium carbonate export Iran, CaCO3 FOB price, Iranian mineral supplier

12. Implementation Phases

Based on competitor analysis and SEO best practices, the following phased approach is recommended:

Phase 1: Foundation (Week 1-3)

- Finalize UI/UX design
- Develop Home, About Us, Products, Contact (4 core pages)
- Set up hosting, domain, SSL
- Implement basic technical SEO (sitemap, schema, analytics)
- Launch Persian version

Phase 2: Expansion (Week 4-6)

- Add Industries section (6-8 pages)
- Add Blog and publish first 5 articles
- Add Quality/Laboratory page
- Add Gallery section
- Implement English version
- Set up Search Console and Analytics

Phase 3: Optimization (Week 7-10)

- Add Export/Logistics page
- Add Careers page
- Add FAQ section with schema
- Add technical datasheets (PDF)
- Establish monthly blog publishing routine
- Start link building

Phase 4: Advanced (Ongoing)

- Sustainability section
- R&D / Innovation section
- Case studies pages
- Arabic and Turkish versions
- Video gallery / virtual mine tour
- Advanced content marketing program
- Monthly SEO performance review

Recommended for Phase 1: Option B (Standard B2B)

Upgrade to Option C (Premium) in Phases 3 and 4.
